Text C

Claim (verbatim or paraphrased)	Accuracy (Y/N/Uncertain)	Verification source	Hallucination type (if any)	Severity (low/med/high)
Amazon rainforest covers 5.5 million square km	N	Encyclopedia Britannica	extrinsic	low
Amazon rainforest covers 9 South American countries	Y	World Wildlife Fund ; Nature Conservancy	n/a	n/a
Amazon is the largest tropical rainforest on Earth	Y	Nature Conservancy ; BBC	n/a	n/a
Amazon contains 400 billion trees	not quite (estimate is 390 billion)	ter Steege et al. (2013): Hyperdominance in the Amazonian tree flora	extrinsic	low
Amazon contains 16,000 species of tree	Y	ter Steege et al. (2013): Hyperdominance in the Amazonian tree flora	n/a	n/a
2019 report from WWF: 30% of Amazon deforested since 1970	N: no such report exists, and the statistics are at best up for debate	Ferreira, 2026: Amazon deforestation: Drivers, damages, and policies ; WWF	extrinsic, though it could also just be because there's no consensus	medium-high
Amazon serves as a carbon sink	Y, although that may no longer be true	Ferreira, 2026: Amazon deforestation: Drivers, damages, and policies	n/a	n/a
Amazon's carbon sink role threatened by deforestation	Y	Ferreira, 2026: Amazon deforestation: Drivers, damages, and policies	n/a	n/a
Amazon river discharges ~20% of all freshwater that goes into the ocean	Y	Encyclopedia Britannica	n/a	n/a

Text D

Claim (verbatim or paraphrased)	Accuracy (Y/N/Uncertain)	Verification source	Hallucination type (if any)	Severity (low/med/high)
Marie Curie was Polish	Y	The Nobel Prize	n/a	n/a
Marie Curie was a physicist and chemist	Y	The Nobel Prize	n/a	n/a
Marie Curie was a pioneer on radioactivity	Y	Encyclopedia Britannica	n/a	n/a
Marie Curie coined the term radioactivity	Y	International Atomic Energy Agency	n/a	n/a
Marie Curie first woman to win Nobel Prize	Y	The Nobel Prize	n/a	n/a
Marie Curie won the Nobel in Chemistry in 1903	N	Encyclopedia Britannica	extrinsic	medium
Curie won the Nobel in 1903 for her discovery of polonium and radium	N	Encyclopedia Britannica	extrinsic	medium
Marie Curie first person to win Nobels in different sciences	Y	The Nobel Prize	n/a	n/a
Marie Curie won the Nobel in Physics in 1911	N	The Nobel Prize	extrinsic	medium
Marie Curie first woman appointed professor at University of Warsaw	N	Encyclopedia Britannica	extrinsic	low
Marie Curie taught for most of her career at University of Warsaw	N	Encyclopedia Britannica	extrinsic	medium

Text E

Claim (verbatim or paraphrased)	Accuracy (Y/N/Uncertain)	Verification source	Hallucination type (if any)	Severity (low/med/high)
---------------------------------	--------------------------	---------------------	-----------------------------	-------------------------

Internet and World Wide Web are the same tech	N	Science and Media Museum	extrinsic	medium
Internet & WWW developed together in late 1980	N	Science and Media Museum	extrinsic	high
Internet & WWW developed by Tim Berners-Lee	N	Science and Media Museum	extrinsic	medium
Tim Berners-Lee worked at CERN	Y, but only for 6 months	Encyclopedia Britannica	n/a	n/a
CERN is in Switzerland	Y	Encyclopedia Britannica	n/a	n/a
Internet & WWW designed to withstand nuclear attack	N	Science and Media Museum	extrinsic	medium
Internet & WWW have no central server	Y	CERN	n/a	n/a
Internet & WWW have no central server to withstand nuclear attack	N	Science and Media Museum	extrinsic	medium
1995: ~50 million people using Internet/WWW	N	Columbia University	extrinsic	medium-low
adoption of Internet was unprecedentedly rapid	Uncertain			

Reflection

Write 2–3 sentences on: What type of hallucination was hardest to detect, and why?

I had to classify all hallucinations as extrinsic because I didn't have the text that was provided in the first place. I assume that the LLM was just provided with a general prompt.
