

Scenario	Appropriate?	Disclose?	To whom	Policy cited	1-sentence reasoning
Scenario 1: Personalized Student Feedback	N	Y	students	no clear policy, though the AI Tools Guide suggests disclosure	Students have a right to know whether feedback they're getting is from the instructor or AI-generated.
Scenario 2: The Department Newsletter	Y	Y	recipients	no clear policy, though the AI Tools Guide suggests disclosure	This is pretty harmless use of AI, but it probably can't hurt to let people know that those tools were used in the creation of the newsletter.
Scenario 3: The Promotion and Tenure Reference Letter	Y	N	n/a	no clear policy	Normally I'd be in favor of disclosure, but I think that would unnecessarily undermine the faith of those involved in the process.
Scenario 4: Student Disability Accommodation Letters	N	Y	Students	AI Tools Guide	This is sensitive data which could only be entered into approved AI tools.

Rather than answering “it depends” on all my assignments, I decided to commit to either “yes” or “no” for all of them.
